

Conclusion Paragraph:

Restate your thesis. This should not be the exact same sentence. Change the words but keep your argument there. Your conclusion should NEVER begin with "In Conclusion."

Remind the reader of the main points that you made in the paper. The conclusion is the last paragraph they will read. Make them remember why you are right! Write at least one sentence about each of your main points and how they prove your argument.

Connect your topic (event or country) to the bigger picture of the atom bomb. In the long term what affect did this event have on human life? Did the event change the way we look at the world in some way?
